

## Linear Low Density Polyethylene Aramco LLDPE F2111

Aramco Trading

### Product Description

Aramco LLDPE F2111 is a linear low density polyethylene resin and is typically used for blown film applications. Films made from this resin typically exhibits good optical properties, impact strength and tensile properties.

This product does not contain slip and anti-blocking agents.

### Typical Applications

General purpose film, lamination film, stretch film

This product is not intended for use in medical and pharmaceutical applications.
